Some tips:

Our chosen site can be **cold and rainy**– please be prepared

- ☺ Cotton when wet makes you cold and takes a long time to dry
- ☺ Synthetics and wool stay warm when wet
- ☺ Synthetics (but not wool) dry quickly
- ☺ A spare jumper is a must in case one gets wet

On both days you will be out all day

- ☺ Your kitbag/daypack will be essential you will use it to carry food, water, clothing, medication and more.
- ☺ Water is essential. You will need a minimum of 2-3 litres every day.
- ☺ Old PET (soft drink) bottles make good water bottles. Old cordial bottles do not.

Sun protection is very important.

- ☺ Always carry and apply sunscreen and wear a hat and appropriate clothing

Shoes are important

- ☺ Cleats or softball playing shoes will be worn during sessions. Running shoes will also be required.
- ☺ A pair of covered shoes like boots or sneakers will also be required for everyday use (at camp).
- ☺ If you would like to bring thongs or slip ons for wearing indoors that is OK.
